

# 2019 Westlake District Conservation Report

At California Water Service (Cal Water), we help our customers conserve water by offering programs and incentives to reduce indoor and outdoor water use, develop more efficient habits, and educate the next generation about the importance of managing water resources sustainably.

Our respect for each person, the environment, and the earth's water supply is reflected in the design and implementation of these tailored programs that result in vast water savings, both now and for years to come.
