**RESIDENTIAL METERED SERVICE**

SPECIAL CONDITIONS (continued)

- 2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
- 3. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.
- 4. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
- 5. **Water Expense Increase:** Beginning on January 1, 2025, rates in this area will reflect a 5.2% revenue increase due to higher charges by Calleguas Municipal Water District. This caused quantity rates to go up by the following amounts: \$0.1245 /CCF for Tier 1 usage, \$0.4975 /CCF for Tier 2 usage, \$0.6218 /CCF for Tier 3 usage and \$0.9327 /CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.13. (C)
