Appendix D: Public Meeting Notice

- Notice of Intent

**NOTICE OF INTENT TO ADOPT AN URBAN WATER MANAGEMENT PLAN
AND HOLD A PUBLIC MEETING
TO RECEIVE COMMENTS ON THE PROPOSED PLAN**

CALIFORNIA WATER SERVICE– KING CITY DISTRICT

California Water Code, Part 2.6, Chapters 1 through 4 (Sections 10610 through 10656), are known as the "Urban Water Management Planning Act." These California Water Code sections require all urban water suppliers that provide water for municipal purposes either directly or indirectly to more than 3,000 customers or supply more than 3,000 acre-feet of water annually to prepare an Urban Water Management Plan as outlined and identified in those sections. This requirement applies to both public and privately owned water utilities.

The plan must describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation, and demand management activities. The components of the plan may vary according to an individual community or area's characteristics and its capabilities to efficiently use and conserve water. The plan must also address measures for residential, commercial, governmental, and industrial water demand management.

The act requires urban water suppliers to update their Urban Water Management Plans (UWMP) at least once every five years, and to file updated plans with the Department of Water Resources, the California State Library, and any city or county served by the supplier no later than 30 days after adoption.

California Water Service (Cal Water) is an investor-owned public utility providing water service throughout California. In addition, Cal Water is regulated by the California Public Utilities Commission (CPUC).

One of Cal Water's service areas is the King City District, which is located in Monterey County.

As a defined urban water supplier, Cal Water is preparing an update to its UWMP that will address the water service conditions in the King City District. It is Cal Water's intent to adopt that plan and file that plan as required with the Department of Water Resources, the California State Library, and any city or county within which Cal Water provides service.

A key focus of this UWMP update is the conservation requirement set forth in Senate Bill 7 (SBx7-7) as passed in November 2009. SBx7-7 mandates a statewide 20% reduction in per capita urban water use by 2020. In order to quantify the objectives and identify the means of achieving this mandated demand reduction, Cal Water has prepared a Conservation Master Plan.

Cal Water is in the process of expanding current conservation programs and developing new programs for its 24 districts. Over the next five years, Cal Water conservation program expenditures are likely to increase, due in large measure to recently adopted state policies requiring future reductions in per capita urban water use. These state policies include SBx7-7, as well as decisions by the California Public Utilities Commission (CPUC) directing Class A and B water utilities to adopt conservation programs and rate structures designed to achieve reductions in per capita water use, as well as the *Memorandum of*

Understanding Regarding Urban Water Conservation in California (MOU), of which Cal Water has been a signatory since 1991.

The Conservation Master Plan for the King City District will be presented to the cities, counties, and customers served by Cal Water's King City District in conjunction with the UWMP.

Schedule of upcoming actions:

On or about May 10, 2016, a printed hard-copy of the Draft 2015 Urban Water Management Plan and the Conservation Master Plan will be available for review during normal business hours at the King City District's Customer Center, located at 1301 Broadway Street, Suite A-3, King City, CA 93930.

It is preferred that prior arrangements are made with the district's management for viewing the Proposed UWMP and/or the Conservation Master Plan. These arrangements can be made by calling (831) 385-5486. An electronic copy will be available on Cal Water's company web site on or about May 10, 2016. The internet address for the Plan is:

www.calwater.com/conservation/uwmp

The public meeting to receive comments on the Proposed UWMP and the Conservation Master Plan will be held on May 26, 2016, at 5:30 p.m., in the King City Customer Center, which is located at 1301 Broadway Street, Suite A-3, King City, CA 93930.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed UWMP, you may send your comments via email to PlanningInfo@calwater.com.

Cal Water will receive comments on the Draft 2015 UWMP and the Conservation Master Plan from May 10, 2016 through June 2, 2016.

Please share this notice with others that may have the need to know.

NOTICE OF INTENT TO ADOPT AN URBAN WATER MANAGEMENT PLAN AND HOLD A PUBLIC MEETING TO RECEIVE COMMENTS ON THE PROPOSED PLAN CALIFORNIA WATER SERVICE-HERMOSA-REDONDO SYSTEM
California Water Code, Part 2.6, Chapters 1 through 4 (Sections 10610 through 10656), are known as the "Urban Water Management Planning Act." These California Water Code sections require all urban water suppliers that provide water for municipal purposes either directly or indirectly to more than 3,000 customers or supply more than 3,000 acre-feet of water annually to prepare an Urban Water Management Plan as outlined and identified in those sections. This requirement applies to both public and privately owned water utilities.
The plan must describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation, and demand management activities. The components of the plan may vary according to an individual community or area's characteristics and its capabilities to efficiently use and conserve water. The plan must also address measures for residential, commercial, governmental, and industrial water demand management. The act requires urban water suppliers to update their Urban Water Management Plans (UWMP) at least once every five years, and to file updated plans with the Department of Water Resources, the California State Library, and any city or county served by the supplier no later than 30 days after adoption.
California Water Service (Cal Water) is an investor-owned public utility providing water service throughout California. In addition, Cal Water is regulated by the California Public Utilities Commission (CPUC). One of Cal Water's service areas is the Hermosa-Redondo system, which serves Hermosa Beach and Redondo Beach, in Los Angeles County. As a defined urban water supplier, Cal Water is preparing an update to its UWMP that will address the water service conditions in the Hermosa-Redondo System. It is Cal Water's intent to adopt that plan and file that plan as required with the Department of Water Resources, the California State Library, and any city or county within which Cal Water provides service.
A key focus of this UWMP update is the conservation requirement set forth in Senate Bill 7 (SBx7-7) as passed in November 2009. SBx7-7 mandates a statewide 20% reduction in per capita urban water use by 2020. In order to quantify the objectives and identify the means of achieving this mandated demand reduction, Cal Water has prepared a Conservation Master Plan. Cal Water is in the process of expanding current conservation programs and developing new programs for its 24 districts. Over the next five years, Cal Water conservation program expenditures are likely to increase, due in large measure to recently adopted state policies requiring future reductions in per capita urban water use. These state policies include SBx7-7, as well as decisions by the California Public Utilities Commission (CPUC) directing Class A and B water utilities to adopt conservation programs and rate structures designed to achieve reductions in per capita water use, as well as the Memorandum of Understanding Regarding Urban Water Conservation in California (MOU), of which Cal Water has been a signatory since 1991.
The Conservation Master Plan for the Hermosa-Redondo System will be

presented to the cities, counties, and customers served by Cal Water's Hermosa-Redondo System in conjunction with the UWMP.

Schedule of upcoming actions:

On or about May 17, 2016, a printed hard-copy of the Draft 2015 Urban Water Management Plan and the Conservation Master Plan will be available for review during normal business hours at the Rancho Dominguez Customer Center, located at 2632 W. 237th Street, Torrance, CA 90505.

It is preferred that prior arrangements are made with the district's management for viewing the Proposed UWMP and/or the Conservation Master Plan. These arrangements can be made by calling (310) 257-1400. An electronic copy will be available on Cal Water's company web site on or about May 17, 2016. The internet address for the Plan is:

www.calwater.com/conservation/uwmp

The public meeting to receive comments on the Proposed UWMP and the Conservation Master Plan will be held on June 2, 2016, at 1:00 p.m., in the Rancho Dominguez Customer Center, which is located at 2632 W. 237th Street, Torrance, CA 90505.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed UWMP, you may send your comments via email to PlanningInfo@calwater.com.

Cal Water will receive comments on the Draft 2015 UWMP and the Conservation Master Plan from May 17, 2016 through June 9, 2016.

Please share this notice with others that may have the need to know.

Learn about the future of your water supply at the Urban Water Management Plan meeting

Given the state of the drought and water shortages around the country, you may have some questions about the future of your water supply. California Water Service (Cal Water) is committed to being a responsible environmental steward and proactively planning for long-term sustainability of our water resources.

We are hosting an Urban Water Management Plan meeting so residential, commercial, governmental, and industrial customers can ask questions and provide feedback regarding sources of supply, water forecasts, reclamation, conservation, and demand management activities.

For more information about Cal Water's plan, visit www.calwater.com/conservation/uwmp or call (831) 385-5486.

Urban Water Management Plan 2015 and Conservation Update: King City District

Meeting Agenda

- Purpose and objectives
- Introduce CWS staff and UWMP consultants
- Presentation of Urban Water Management Plan
- Presentation of Conservation Master Plan
- Public comments and questions

Housekeeping

- Please sign meeting attendance sheet
- Record specific concerns on comment form
- Other contact methods will be outlined at the end of the presentation

Overview

- District overview
- Urban Water Management Plan update
- Conservation master plan
- Compliance with drought regulations
- Conservation programs

2015 Urban Water Management Plan

- Updated every 5 years pursuant to Urban Water Management Plan Act
- Will be completed by July 1, 2016
- Supports long-term water resource planning to ensure adequate supplies

UWMP Background

Urban Water Management Planning Act

- California Water Code Part 2.6 Chapters 1-4 (Sections 10610-10656)
- Threshold: Utilities with 3,000+ Services or 3,000+ AFY water sales
- 20-year planning horizon

UWMP Background

UWMP elements

- Service area description
- Population forecast
- Water demands
- Water supplies
 - Alternative sources
- Water supply reliability
 - Groundwater – SGMA implications
- Demand management measures
- Climate change

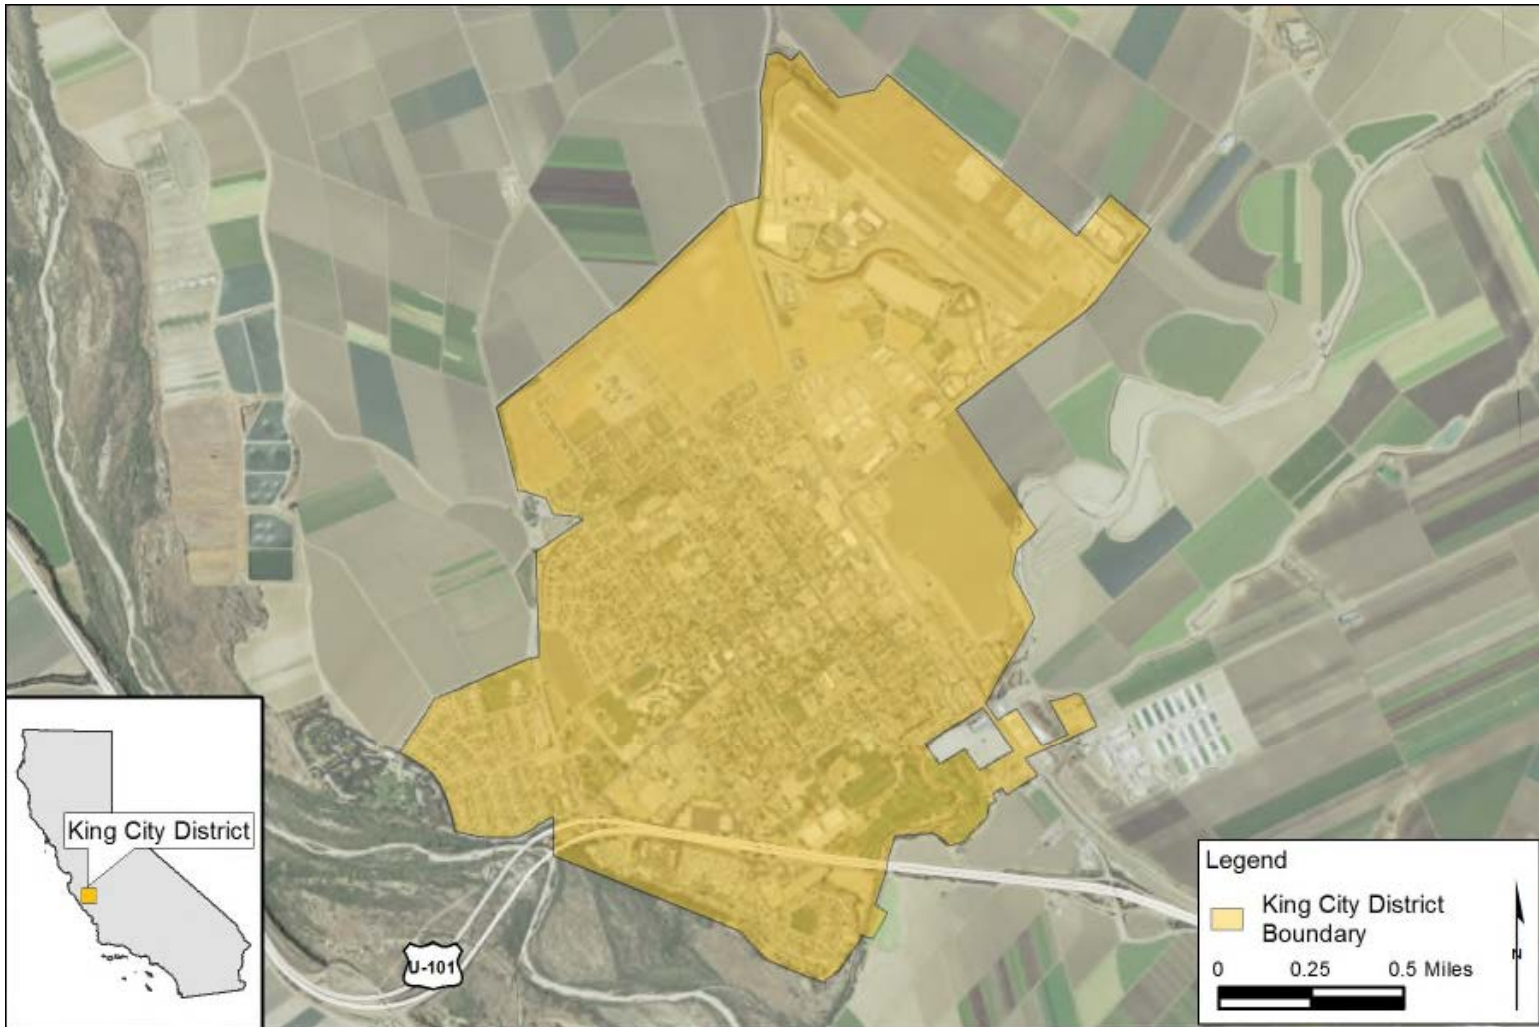

District Background

- Serving community since 1962
- Use groundwater produced by 6 wells
- Distribute through system of:
 - 3 storage tanks
 - 29 miles of pipeline

Map of Service Area

Losses	136	147	159	173	187
TOTAL	1,883	1,971	2,082	2,212	2,361

Conservation Master Plan

- Provides broad guidance to inform conservation activities
- Summarizes mix of conservation measures
- Explains evaluation process
- Provides an update to 2011-15 Conservation Master Plan
- Ensures path to meet regulatory requirements

Main Conservation Program Drivers

- SB X7-7 Compliance
- Efficient Service Area Growth
- High Outdoor Demand

SB X7-7

- Goal to reduce per capita urban water use by:
 - 10% by Dec. 31, 2015
 - 20% by Dec. 31, 2020
- Requires urban retail water supplies to include in UWMP:
 - Baseline per capita water use
 - 2015, 2020 targets
- Conditions eligibility for state grants, loans on compliance
- Failure to meet targets violation of state law after January 1, 2021

Conservation Program Development

Step 1: Qualitative Assessment of Possible Programs

Step 2: Quantitative Analysis of Screened Measures

Step 3: Portfolio Development & Budgets

Compliance with SBx7-7

Program Portfolio (2016-2020)

Estimated Savings (2016-2020) (KC)

Compliance with Drought Regulations

- Original mandate from June 2015-February 2016 at 12% for King City
- State extended emergency through October 2016 with mandated water-use reduction at 9% for King City
- Reductions compared to 2013
- Water budgets similarly adjusted
- Surcharge courtesy tier implemented

Residential Rebates for Water-Efficient Products

Product Category	Product Qualifications	Rebate
High-efficiency toilet rebate (Non-Premium Models)	IFMA WaterSense Labeled. See qualified product list for qualified models.	Up to \$100
High-efficiency toilet rebate (Dual Premium Models)	MAP Premium Models. See qualified product list for qualified models.	Up to \$100
Residential High-Efficiency Clothes Washer	CEE Tier 3. See qualified product list for qualified models.	Up to \$150
Smart Irrigation Controller	SMART-Label or FFA WaterSense-Label. See qualified product list for qualified models.	Up to \$120

Customer Eligibility

- Devices must be installed at a site served by California Water Service (Cal Water).
- The Cal Water account number must be for the location the device is installed.
- Conservation programs are not currently available to those served by the City of Commerce.

Rebate Details

- Rebates will only be paid for the purchase price of the device(s). This does not include tax, shipping, or installation.
- The offer only applies to qualified devices purchased and installed from January 1, 2015, through December 31, 2015, or until rebate program funds are depleted, whichever comes first.

Quality. Service. Value.

Water is essential to your business. Use it wisely.

California Water Service (Cal Water) can help with our on-site water-use efficiency evaluations* for commercial, industrial, and institutional customers at no charge.

High evaluation of your organization's property, including industrial processes, irrigation, and plumbing fixtures. You will receive a customized water-use report detailing how your property can be made more water-efficient.

Cal Water can help customers continue to use water wisely. This service is so don't delay!

State Extends Drought Restrictions through October 2016

El estado extiende las restricciones de la sequía hasta octubre de 2016.

The State Water Resources Control Board (State) has decided to extend its mandatory water-use reductions and restrictions through October 2016.

In order to continue meeting required reduction targets, we will maintain our current program of water budgets and banking. If you had your budgets modified through the appeal process, you will receive separate correspondence about the program. If you would like information about the appeal process, please visit www.calwater.com/appeal.

Please note that the State may modify its regulations after the April 1 snowpack assessment. We will notify you of any changes that are made. In the meantime, we thank you so much for your conservation efforts. For information on all of the programs we offer to help you meet the State's targets, please visit www.calwater.com/conservation.

La Junta de Control de Recursos del Agua del Estado (Estado) ha decidido extender sus restricciones de agua hasta octubre de 2016.

Para poder continuar cumpliendo con los objetivos de reducción requeridos, mantendremos nuestro programa actual de presupuestos y acumulación de agua. Si sus presupuestos fueron modificados a través del proceso de apelación, recibirá correspondencia separada sobre el programa. Si desea información sobre el proceso de apelación, visite www.calwater.com/appeal.

Tenga presente que el Estado puede modificar sus regulaciones después de la evaluación de la nieve en abril del 2016. Le avisaremos de cualquier cambio que se haga. En el meantime, le damos las gracias por sus esfuerzos de conservación. Para obtener información sobre todos los programas que ofrecemos para ayudarle a cumplir con los objetivos del Estado, visite www.calwater.com/conservation.

2015 UWMP Update: Outreach

- Preliminary information first sent to City in August 2015
- Two notices posted in local newspaper
- Draft update available at **calwater.com/conservation/uwmp** and at Customer Center
- Public hearing

Questions or Comments

- Provide any questions or comments on the Comment Form
- Comments on any parts of the UWMP will be accepted through June 2, 2016
- Send 2015 Urban Water Management Plan comments to: planninginfo@calwater.com
- Send Conservation Master Plan comments to: conservation@calwater.com
