

Schedule No. 14.1

WATER SHORTAGE CONTINGENCY PLAN
WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES

California Water Service’s (“Cal Water”) supply of water may be interrupted or reduced due to a variety of circumstances, for instance, in response to a drought or other catastrophic event. This Schedule builds upon Cal Water’s Rule 14.1 and provides it with additional means to achieve necessary reductions in water use.

A. APPLICABILITY

- 1. This schedule applies to all of California Water Service’s regulated ratemaking areas in California, as well as Grand Oaks Water.

B) GENERAL INFORMATION

- 1. All expenses incurred by California Water Service to implement Rule 14.1, and Schedule 14.1, that have not been considered in a General Rate Case or other proceeding shall be accumulated by Cal Water in a separate memorandum account, authorized by the Commission, for disposition as directed or authorized from time to time by the Commission.
- 2. All monies collected by Cal Water through waste of water penalties established in this schedule shall be recorded in the appropriate memorandum account and used to offset the expenses described in Section 1 above.
- 3. Except in the case of Grand Oaks, all monies collected by Cal Water through drought surcharges, as established by the Mandatory Budgets found in Schedule 14.1, shall be recorded in the appropriate Water Revenue Adjustment Mechanism (“WRAM”) account and used to offset under-collected revenues.
- 4. To the extent that any provision in this Schedule is inconsistent with Rule 14.1, the provisions of this Schedule apply.

C) DEFINITIONS

For the purposes of this Schedule, the following terms have the meanings set forth in this section. (These are the same as in Rule 14.1, unless otherwise specified.)

- 1. “Commercial nursery” means the use of land, buildings or structures for the growing and/or storing of flowers, fruit, trees, ornamental trees, vegetable plants, shrubs, trees and similar vegetation for the purpose of transplanting, for use as stock or grafting, and includes the retail sale or wholesale distribution of such items directly from the premises/lot.

5. EGREGIOUS VIOLATIONS

Notwithstanding the foregoing framework for penalties, customers who Cal Water has verified are egregiously using potable for non-essential, wasteful uses are subject to having a flow-restricting device installed on their service line. Cal Water shall not be held liable for any injuries, damages, and/or consequences arising from the installation of a flow-restricting device.

(C)

(C)

6. NOTICES OF VIOLATION

- a) Unless otherwise specified, written notices of violation provided to customers pursuant to this Schedule shall document the verified violation and alert the customer to the fact that future violations of the restricted uses of potable water may result in a real-time water measurement device being installed on the customer's service line at the customers expense, waste of water penalties being applied to the customer's bill, the installation of a flow-restricting device on the customer's service line, or the discontinuation of the customer's service.
- b) If Cal Water elects to install a flow-restricting device on a customer's service line, the written notice shall document the steps the customer must take in order for the follow-restricting device to be removed, and shall explain that after the flow-restricting device is removed, it may be reinstalled, without further notice, if the customer is again verified by Cal Water to be using potable water for non-essential, wasteful uses.

(T)

7. FLOW RESTRICTING DEVICE CONDITIONS

The installation of a flow-restricting device on a customer's service line is subject to the following conditions:

- a) The device shall be capable of providing the premise with a minimum flow rate of 0.5 gallons per minute.
- b) The device may only be removed by Cal Water, and only after a minimum three-day period has elapsed.

- c) Any tampering with the device may result in the discontinuation of the customer’s water service and the customer being charged for any damage to Cal Water’s equipment or facilities and any required service visits.
- d) After the removal of the device, if Cal Water’s personnel verify that the customer is using potable water for non-essential, wasteful uses, Cal Water may install another flow-restricting device without prior notice. This device shall remain in place until water supply conditions warrant its removal. If, despite the installation of the device, Cal Water’s personnel verifies that the customer is using potable water for non-essential, wasteful uses, then Cal Water may discontinue the customer’s water service, as provided in its Rule No. 11.

8. FLOW RESTRICTING DEVICE REMOVAL CHARGES

The charge to customers for removal of a flow-restricting device installed pursuant to this Schedule is \$100 during normal business hours, and \$150 for the device to be removed outside of normal business hours.
