RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

2. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.
3. Fire sprinkler rate: A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
4. **Water Expense Decrease:** Beginning on January 1, 2025, rates in this area will reflect a 9.0% revenue decrease due to lower charges by Stockton East Water District. This caused quantity rates to go down by the following amounts: \$0.0479 /CCF for Tier 1 usage, \$0.1903 /CCF for Tier 2 usage, \$0.2378 /CCF for Tier 3 usage, and \$0.3564 /CCF for Tier 4 usage. Amounts collected from these quantity rate changes will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went down, with the charge for a 5/8 x 3/4-inch meter decreasing by \$0.69.
